THE STATE TAX DEPARTMENT

The State Tax Department, an executive agency in the State government, is vested with the authority and responsibility of the office of the State Tax Commissioner, which office was created by an act of the Legislature in 1904. The title of the agency was changed by an Act of Legislature in 1967. However, the broad scope of duties and powers of the office were not altered, and the State Tax Commissioner remains responsible for all official acts of the State Tax Department.

At the time the office of the State Tax Commissioner was created, the State as well as its governmental subdivisions lived and operated almost entirely on revenue derived from property taxes. It is not surprising, therefore, that the original and primary responsibilities of the Tax Commissioner related almost exclusively to the assessment, levy, and collection of property taxes. In fact, the statutes still contain the following language: "It shall be the duty of the Tax Commissioner to see that the laws concerning the assessment and collection of all taxes and levies are faithfully enforced." It is evident then, that the office retains some supervisory and advisory responsibilities in this area.

Because the Tax Commissioner was charged with the supervision of the levy and collection of property tax, it was logical for him to have been made, ex-officio, the Chief Inspector and Supervisor of Public Office. This occurred in 1908, and the Tax Commissioner, as such, was charged with the responsibility of conducting the post-audit of all levying bodies and public offices.

Although the property tax remained a dominant revenue source for many years, the responsibility of the Tax Commissioner for the enforcement and collection of indirect taxes constituted an increasingly important responsibility during the nineteen thirties. It is interesting to note that the total revenue collections from indirect taxes for the year 1905 amounted to $10,494.86. This entire amount was derived from the state inheritance tax. Aside from the regulatory license taxes and the personal property forfeiture tax (which was really an adjunct of the property tax), no additional indirect taxes were included in the state tax structure until 1922 when the gross sales tax first came into effect. This tax was most innocuous as compared to the present business and occupation tax. It was followed by the enactment in 1924 of the gasoline tax, which was needed to provide revenue to meet demands for better roads. Thereafter the indirect tax picture remained unchanged until the year 1933.

A radical change in West Virginia's tax structure developed as a consequence of the tax limitation amendment of 1932. The adoption of the amendment, together with the necessity for increased services at the State level, required a shift away from the property tax to indirect taxation. Also, the tax limitation amendment coincided, unfortunately, with a deterioration in property tax assessments and the property tax base was somewhat eroded. Although the Tax Commissioner was still charged with duties associated with the assessment and levy of property taxes, he was becoming evermore involved with the enforcement of and the collection of indirect taxes. The 1933 Legislative Session, in addition to retaining the inheritance and gasoline taxes, enacted a far-reaching version of the business and occupation tax, a transportation privilege tax, and a personal income tax; this latter statute was repealed some nine years later, but a more modern conformity income tax based upon the Federal Internal Revenue Code was enacted in 1961 and it has proved far more workable. In 1947 the cigarette tax became effective and it was followed in 1951 by the soft drinks tax, the latter being dedicated in its entirety to the Medical School of West Virginia University. In 1967 the transportation privilege was repealed and replaced by a carrier income tax due to a Supreme Court decision and the recommendation of the State Tax Department. And, finally, in 1967, the Legislature enacted a corporation net income tax, a statute conforming to the Federal Internal Revenue Code provisions relating to the determination of corporation income for Federal income tax purposes. The addition of these various revenue statutes, together with a markedly expanding economy, has had an enormous effect upon the administrative responsibilities of the office of the State Tax Commissioner. This is strikingly illustrated by comparing total revenue collections of the department. In the year 1933, revenues were less than seven and one-half million dollars and the net revenue collections for the fiscal year ended June 30, 1980, were approximately one billion dollars. It is also interesting to note that the net revenue collections in the department have increased from 168 million dollars in 1961-62 or 495% in the past 18 years.

In 1969, the State Tax Department reorganized into five major operating divisions, each responsible for a major area of taxation. The division created were: The Business Tax Division, Excise and License Tax Division, Personal Income Tax Division, Inheritance Tax Division, and Local Government Relations Division, Department-wide staff and support functions are now performed by the Operations Division, Research Division, Legal Division and the Office of Hearings and Appeals.

All Divisions concerned with the administration and collection of indirect taxation modernized their forms, converted to electronic data processing, and improved their delinquency control on all taxes. Timely delinquency and collection control is possible with the use of electronic data processing. The enactment of the Business Franchise Registration Act serves as a base from which to create a main file from which all tax accountability can be measured.

Significant developments within the field of direct taxation have been a combination of all previous departmental units responsible for the supervision of the local property tax into one division of Local Government Relations. That Division has issued uniform regulations with the respect of assessment of all kinds of property statewide, has sponsored training programs for assessors and State Tax Department appraisers, provided training to local officers to assist them in responsibly handling and accounting for local tax collections; it has developed the uniform data processing system which makes available to each county government modern electronic data processing technology. Significant legislative developments in this area have been the elimination of household goods and personal effects not used in the trade or business from personal property tax base, the enactment of the Circuit Breaker Homestead Relief Act which provides a direct payment from the State to individual homeowners and renters who have paid what the law defines as excessive property tax, and the passage of two homestead amendments to the constitution.

INDIRECT TAXATION

FORFEITURE PENALTY

Chapter 11, Article 3, Section 10, of the West Virginia Code, was amended effective July 1, 1974 to reduce the forfeiture to one percent of the property not returned, and transferred the obligation to collect such forfeiture to the offices of the Assessor and Sheriff of each county in lieu of the heretofore requirement of collection of the forfeiture by the State Tax Commissioner.

INHERITANCE AND TRANSFER TAX

Chapter 11, Article 11, of the West Virginia Code, as amended, imposes a tax upon property transferred either by will, the laws of inheritance and distribution, or by deed, grant, sale or gift made in contemplation of death.

The tax is imposed upon the market value of the property at the time of the death of the transferor, and is due and payable to the State Tax Commissioner at the time. A penalty and interest are added if not paid within 11 months.

Exemptions are provided for certain stated sums transferred to a father, mother, husband, wife, stepchild or grandchild of the decedent, or the brothers and sisters of an unmarried decedent.

Rates of tax are fixed according to the relationship to the decedent and according to the amount transferred.

Under the provisions of this Act taxes have been collected for the fiscal years 1978-79 and 1979-80 as shown in the following table:

THE GENERAL CONSUMERS SALES AND SERVICE TAX

The Consumers Sales and Service Tax Law (Code 11-15), administered by the Business Tax Division, has been in effect since 1934. The tax applies to all retail sales of tangible personal property consummated within the State for use or consumption or any other purpose, except, (1) sales for resale, (2) sales of named property items, (3) sales to certain exempt persons, and (4) interstate sales. The tax also applies to the furnishing of all services, except professional and personal services. It is a tax upon consumption by intent and has consistently proven a major source of tax revenue for the General Revenue Fund.

The rate of tax is measured according to the sales bracket system as follows:

(1) on each sale, where the monetary consideration is from six cents to 35 cents, both inclusive, one cent;

(2) on each sale, where the monetary consideration is from 36 cents to 70 cents both inclusive, two cents;

(3) on each sale, where the monetary consideration is from 71 cents to $1, both inclusive, three cents;

(4) on each sale in excess of $1, the tax is three cents on each whole dollar and on any fractional part of a dollar in excess of whole dollars the following schedule applies: 35 cents or less, one cent; from 36 cents to 70 cents, two cents; and from 71 cents and over, three cents.

Individual sales of five cents or less are exempt from tax; however, the purchase of two five cent articles at the same time is a taxable transaction.

The law expressly exempts the following from the tax:

(1) sales of gasoline;

(2) sales of gas, steam and water delivered to consumers through mains or pipes, and sales of electricity;

(3) sales of text books required to be used in any of the schools of the State;

(4) sales to the State, its institutions or subdivisions, and sales to the United States, including sales to agencies of federal, state or local governments for distribution in public welfare or relief work;

(5) sales of motor vehicles which are titled and taxed by the Department of Motor Vehicles;

(6) Sales of property or services to churches and bonafide charitable organizations who make no charge whatever for the services they render or sales of property or services to corporations or organizations qualified under section 501 (c)(3) of the Internal Revenue Code of 1954, as amended, or under section 501 (c)(4) of the Internal Revenue Code of 1954, as amended, who make casual and occasional sales not conducted in a repeated manner or in the ordinary course of repetitive and successive transactions of like character, or sales of property or services to persons engaged in this State in the business of contracting, manufacturing, transportation, transmission, communication, or in the production of natural resources: Provided, however, that the exemption herein granted shall apply only to services, machinery, supplies and materials directly used or consumed in the business or organizations named above;

(7) isolated transactions not ordinarily being made in the conduct of business;

(8) Sales of tangible personal property and services rendered for use or consumption in connection with the conduct of the business of selling tangible personal property to consumers or dispensing a service subject to tax under this article and sales of tangible personal property and services rendered for use or consumption in connection with the commercial production of an agricultural product the

ultimate sale of which will be subject to the tax imposed by this article: Provided, however that sales of tangible personal property and services to be used or consumed in the construction of or permanent improvement of real property shall not be exempt.

(9) Sales of tangible personal property for the purpose of resale in the form of tangible personal property;

(10) Sales of property or services to nationally chartered fraternal or social organizations for the sole purpose of free distribution in public welfare or relief work;

(11) Sales and services, fire fighting, or station house equipment, including construction and automotive, made to any volunteer fire department organized and incorporated under the laws of the State of West Virginia;

(12) Sales of newspapers when delivered to consumers by route carriers;

(13) Sales of drugs dispensed upon prescription;

(14) Sales of radio and television broadcasting time, newspaper and outdoor advertising space for the advertisement of goods or services;

(15) Sales and services performed by day care centers;

(16) Casual and occasional sales of property or services not conducted in a repeated manner or in the ordinary course of repetitive and successive transactions of like character by corporations or organizations qualified under section 501 (c)(3) of the Internal Revenue Code of 1954, as amended, or under section 501 (c)(4) of the Internal Revenue Code of 1954, as amended;

(17) Bank safety deposit boxes. (1937, c. 108; 1941, c. 119; 1943, c. 90; 1951, c. 182; 1955, c. 169; 1957, c. 164; 1963, c. 186; 1969, c. 143; 1974, c. 136.)

The law provides that a merchant shall collect the tax from the purchaser and further provides that the purchaser shall pay the tax to the merchant, and provides that no compensation or profit is allowed for the collection of the same.

A tax due and unpaid under the law is a debt due the State. The tax is the personal obligation and liability of the taxpayer for such amounts as he failed to collect, and is a lien upon all of the property of the taxpayer. If the taxpayer is a corporation, its officers are personnally liable in case of default; bankruptcy, either corporation or individual, does not exonerate the liability for taxes.

If any person, liable for the tax imposed by this article sells his business or stock of merchandise and fails to pay the taxes due from his business, his successor, if any, is personally liable for payment of the taxes and penalties accrued and unpaid on account of the operation of the business by the former owner.

USE TAX

The Use Tax Law (Code 11-15A), administered by the Business Tax Division, has been in effect since July 1, 1956, and was designed as a companion measure to the consumers sales and service tax on each one dollar of the purchase price of tangible personal property purchased outside the State of West Virginia for use in this State with the exception of certain specific exemptions provided under the law.

All out-of-state mail order houses or retailers who maintain a store or place of business located in this state must collect the Use Tax on all taxable sales of tangible personal property made for use by customers located in West Virginia, regardless of the fact that the entire transaction may be handled through the mail and the merchandise shipped by the out-of-state vendor direct to the purchaser. The Use Tax must also be collected by all out-of-state retailers or vendors who do not have a retail store or place of business within West Virginia and who are authorized to collect the tax and those who maintain within the state, an office, warehouse, distribution point, or any agent within this state under the authority of the retailer or vendor.

Any person who uses tangible personal property upon which the tax has not been paid to the seller is personally liable for such tax and shall, on or before the fifteenth day of the month next succeeding the quarterly period, pay the tax imposed upon all such property direct to the State Tax Commissioner.

§11-15A-3. Exemptions.

The use in this State of the following tangible personal property is hereby specifically exempted from the tax imposed by this article:

1. All articles of tangible personal property brought into the State of West Virginia by a nonresident individual thereof for his or her use or enjoyment while within the State.
2. Tangible personal property, the gross receipts from the sale of which are exempted from the retail sales tax by the terms of section nine [§11-15-9], article fifteen, chapter eleven of the Code of West Virginia, one thousand nine hundred thirty-one.
3. Tangible personal property, the gross receipts from the sale of which are derived from the sale of machinery, supplies and materials to contractors, or to persons engaged in the business of manufacturing, transportation, transmission, communication or in the production of natural resources in this State.
4. Tangible personal property, the gross receipts or the gross proceeds from the sale of which are required to be included in the measure of the tax imposed by article fifteen [§11-15-1 et seq.], chapter eleven of the Code of West Virginia, one thousand nine hundred thirty-one.
5. Tangible personal property the sale of which in this State is not subject to the West Virginia consumers sales tax. (1951, c. 183; 1969, c. 144.)

BUSINESS AND OCCUPATION TAX

The Business and Occupation Tax (Code 11-13) is levied for the privilege of engaging in business activity in West Virginia. The tax is determined by applying different rates against an annual base which has been generated in the classification of business activity or activities in which the taxpayer has engaged. This base may consist of the value of products, the gross proceeds of sales, or the gross income of the business.

Despite the commonly used but erroneous name, "gross sales tax", the Business and Occupation Tax is not a transaction tax that the law considers to be borne by a purchaser. It is not a tax that can be considered an income tax, although in many instances, gross income is the measure of the tax. Further, in two business activity classifications, (natural resource production and manufacturing) the measure of the tax is the value of the article produced or manufactured as shown by the gross proceeds derived from the subsequent sale thereof.

The statute constitutes, in fact, a levy upon the business activity as measured by several different yardsticks and contains features unique among revenue measures. For example, if more than one person engages in a single activity or transaction, as in the case of a contractor and sub-contractor, each must pay a tax measured by his entire income regardless of the tax paid by the other.

The Business and Occupation Tax is a categorized tax; that is to say, the law provides business classifications in which defined business activities are taxed at specific rates which may differ from the rates assigned other specifically-described forms of business activity. The primary business activity classficiations are as follows:

A. Production of Coal and Other Natural Resource Products. The tax is measured by the value of the articles mined or produced as shown by the gross proceeds derived from the sale thereof by the producer, the rates being applied against the value of the entire production in West Virginia, regardless of the place of sale or the fact that deliveries are made to points outside the State.

Coal	$3.85 per $100.00
Sand, gravel, or other mineral products not quarried or mined; oil, blast furnace slag	$4.34 per $100.00
Natural gas (exemptions include deduction of $5,000 annually)	$8.63 per $100.00
Limestone or sandstone quarried or mined; and timber	$2.20 per $100.00
Other natural resource products	$2.86 per $100.00

B. Manufacturing, Compounding or Preparing for Sale. The tax is measured by the value of the articles manufactured, compounded or prepared for sale in West Virginia, as shown by the gross proceeds derived from the sale thereof by the manufacturer or person compounding or preparing the same. The rate, 88 cents on each $100.00 value, applies against the value of the entire production in West Virginia, regardless of the place of the sale or the fact that deliveries are made to points outside the State.

C. (1) Business of Selling Tangible Property at Retail. There is levied a tax of 55 cents on each $100.00 of gross income, as defined by the statute, for this type of business.

(2) Business of Selling Tangible Property at Wholesale. There is levied a tax of 27 cents on each $100.00 of gross income, as defined by the statute, for this type of business.

D. Public Service or Utility Business. The tax rates set forth hereinbelow are levied on the gross income of the following businesses:

Street Interurban and Electric Railways	$1.40 per $100.00
Electric Light and Power Companies (Producers)	$4.00 per $100.00
Electric Light and Power Companies (Distributors)	$3.00 per $100.00

Electric Light and Power Companies (Producers and Distributors). Sales and demand charges exceeding two hundred thousand kilowatts per hour per year per customer	$2.46 per $100.00
Water Companies	$4.40 per $100.00
Natural Gas Companies: Toll Bridges	$4.29 per $100.00
Other Public Utilities — (Except telegraph and telephone companies, railways and other transportation companies)	$2.86 per $100.00

E. Contracting. There is levied a tax of $2.20 on each $100.00 of gross income, as defined by the statute, for this type of business.

G. Amusement. There is levied a tax of 71 cents on each $100.00 of gross income, as defined by the statute, for this type of business.

H. Service Business or Calling Not Otherwise Specifically Taxed. There is levied a tax of $1.15 on each $100.00 of gross income, as defined by the statute, for this type of business.

I. Business of Furnishing Property for Hire. There is levied a tax of $1.15 on each $100.00 of gross income, as defined by the statute, for this type of business.

K. Banking and other Financial Institutions. There is levied a tax of $1.15 on each $100.00 of gross income, as defined by the statute, for this type of business.

L. Additional Tax On the Severance, Extraction, and Production of Coal. There is levied an additional tax for the exclusive benefit of the counties and municipalities of this State of 35 cents per $100.00 on the value of all coal produced in West Virginia. (This tax is reflected in the $3.85 per $100.00 rate on the Production of Coal).

M. Sales of Electric Power Not Taxed as a Public Utility Activity	$4.00 per $100.00

An annual exemption of $50 in tax is provided under the Business Occupation Tax Law for each taxpayer engaged in business activity in the state. Specific exemptions in taxable gross income are also allowed under certain activity classifications. In addition, a credit for industrial expansion is allowed for certain forms of investment by industrial taxpayers. Authorized agents of municipalities imposing a Business and Occupation Tax are permitted to inspect returns filed with the State Tax Commissioner upon the written request of the mayors of such municipalities.

ANNUAL TAX ON THE INCOMES OF CERTAIN CARRIERS

The Carrier Income Tax (Code 11-12A) was adopted in 1967 in replacement of the Transportation Privilege Tax, and combines certain features of both the Business and Occupation Tax and Corporations Net Income Tax. The basic activity classifications are as follows:

A. **Motor Vehicle Carriers**
This classification includes bus lines, truckers and transfer companies, railroad car corporations, express corporations or companies, and other motor vehicle carriers. There is levied a tax at a rate of $3.30 on each $100 of gross intrastate income and $6.60 on each $100 of prorated (to determine that portion derived from West Virginia business activity) net income from all business.

Exceptions are made in the cases of urban and suburban bus lines (that do not exceed 40 miles en route), taxes and taxicab companies, and for garbage and refuse haulers.

B. **Telephone and Telegraph Corporations**
In the case of telephone corporations, there is levied tax of $3.74 on each $100 of gross intrastate income and $3.74 on each $100 of prorated (to determine that portion derived from West Virginia business activity) net income from all business. In the case of telegraph corporations, the rate of tax is $3.30 per $100 of gross intrastate income and $6.60 per $100 or prorated net income from all business.

C. **Pipeline Corporations**
There is levied in this classification a tax of $3.30 on each $100 of gross intrastate income, and $6.60 on each $100 of prorated (to determine that portion derived from West Virginia business activity) net income from all business.

D. **Airline Corporations and Operation of Steamboat or Other Watercraft**
The rate of tax in this classification is $3.30 per $100 of gross intrastate income, and $6.60 per $100 of prorated (to determine that portion derived from West Virginia business activity) net income from all business.

E. **Railroad Corporations**
There is levied in this classification a tax of $3.30 on each $100 of gross intrastate income, and $6.60 on each $100 of prorated (to determine that portion derived from West Virginia business activity) net income from all business.

WEST VIRGINIA CORPORATION NET INCOME TAX

The West Virginia Corporation Net Income Tax (Code 11-24), effective July 1, 1967, imposes a tax at a rate of 6 percent of prorated net income of every domestic or foreign corporation engaging in business in the State, or deriving income from property, activity or other sources in the State, except where said corporations may be exempt.

The following corporations are exempt from this tax:

(a) corporations which by reasons of their purposes or activities are exempt from federal income tax provided that the exemption shall not apply to the unrelated business income as defined in the Internal Revenue Code (unrelated business income includes income from the sale by any private club of food and alcoholic liquors other than in sealed packages for consumption on its premises and of services related thereto);

(b) insurance companies which pay the State a tax upon premiums provided that this exemption shall not extend to income of any such corporation which is received for the use of real property other than property in which any such corporation maintains its place of business in this State, whether such income be in the form of rents or royalties;

(c) production credit associations organized under the provisions of the federal "Farm Credit Act of 1933", provided that this exemption shall not apply to corporations or associations under the Article;

(d) trusts established pursuant to Section 186, Chapter 7, Title 29 of the Code of Law of the United States (Labor Management Relations Act) as amended prior to the first day of January, 1967;

(e) corporations electing to be taxed under subchapter S of the Internal Revenue Code of 1954, as amended; (such corporations are, however, required to file information returns);

(f) banks, banking associations, trust companies, building and loan associations and savings and loan associations.

The West Virginia Corporation Net Income Tax is related to the Federal corporation income tax and, therefore, information provided in the Federal returns serves as the basis for State administrative and tax auditing procedures. In accordance with Internal Revenue Service Code (Section 48), the total amounts paid or incurred during the taxable year for the acquisition, construction or development within the State of water and air pollution control facilities is deductible from West Virginia taxable income. There is a credit against tax in an amount not to exceed the sum of Business and Occupation and/or Carrier Income taxes paid for the same taxable year.

WEST VIRGINIA CORPORATION LICENSE TAX

The West Virginia Corporation License Tax (Code 11-12) effective July 1, 1975, imposes an annual license tax on all profit corporations.

The license tax fee is based upon the authorized capital stock for domestic corporations. (No par stock is arbitrarily assigned a value of $25 unless it was originally issued for a greater amount.) The tax rates vary from $20 to $2,500 per year.

Foreign corporations are assessed a license tax according to the proportion of the issued and outstanding capital stock which is represented by property owned and used in this State. The rates vary from a minimum tax of $250 to $4,375.

Building and loan corporations are assessed the license tax based upon the outstanding loans as of June 30 of each year. Both domestic and foreign building and loan associations are taxed at the same rate as domestic corporations.

All corporations maintaining their principal place of business or chief works outside West Virginia must pay an annual statutory attorney fee of $10 in addition to the license tax. This fee is due and payable at the same time (July 1) as the annual license tax.

The following corporations are exempt from payment of this tax:

(A) Nonprofit corporations

(B) Foreign corporations qualifying under Chapter 31, Article 1, Section 79a to carry on the activities listed therein.

(C) Credit unions

(D) Insurance companies which pay a premium to the State Insurance Commission. (They are required to pay the statutory attorney fee directly to the Secretary of State's Office.)

In addition to remitting the amount of corporation license tax due on or before July 1 of each year, every corporation with the exception of those organized under Chapter 31-1-79a and insurance companies are required to file in duplicate an annual report form.

The original return is forwarded to the State Tax Department and the copy if sent separately to the West Virginia Secretary of State's Office. This annual report must disclose the officers names and addresses, nature of business conducted, date authorized to do business in West Virginia and the principal location. In the case of foreign corporations, they must in addition list the number of shares and type stock together with the values for each share. Also, property owned and used both inside and outside West Virginia must be shown.

GASOLINE EXCISE TAX AND MOTOR CARRIER ROAD TAX

GASOLINE EXCISE TAX: The first Act imposing a tax on gasoline was passed by the Legislature of West Virginia, on April 27, 1923, (Chapter 11, Article 14) which became operative July 26, 1923. This original Act has been amended and reenacted several times by the West Virginia Legislature.

The salient features of the Act as last amended and reenacted are:

1. Imposing an excise of 10-1/2 cents per gallon on gasoline (including special fuels) sold from storage within this state by any distributor or producer to any person or any retail station in this state or when used in an internal combustion engine. This Act also provides that if any retail dealer, importer or user shall pay the excise tax on any gasoline (including special fuels) not previously included in the measure of tax, received into his storage within this state or used as a fuel in an internal combustion engine.

2. It also provides for certain exemptions from the tax and refund provisions when the fuel is used in certain categories.

MOTOR CARRIER ROAD TAX: The West Virginia Legislature of 1959 enacted the Motor Carrier Road Tax Law (Chapter 11, Article 14-A) effective July 1, 1959. The purpose of the Act is to require operators of heavy vehicles to purchase in West Virginia as much gasoline (including diesel fuel) as they use in West Virginia.

A Motor Carrier is defined as every person, firm or corporation who operates or causes to be operated on any highway in this State any passenger vehicle that has seats for more than nine passengers in addition to the driver, or any road tractor or any tractor truck, or any truck having more than two axles.

Under the provisions of the above mentioned Acts, taxes have been collected and refunded for the fiscal year 1978-1979 and fiscal year 1979-1980 as follows:

GASOLINE EXCISE TAX

*The Acts of the 1978 Legislature (House Bill No. 143) amended and reenacted certain sections of Article 14, Chapter 11, effective June 1, 1978 imposing an additional tax of 2 cents per gallon on all motor fuel including inventories on hand on the effective date of the amendment.

CIGARETTE TAX

The Cigarette Tax was enacted by the Legislature of 1947 and was subsequently amended and reenacted by the Acts of the 1951 Legislature, the Acts of the 1956 Legislature, the Acts of the 1958 Legislature, the Acts of the 1961 Legislature, the Acts of the 1962 Legislature, and the Acts of the 1963 Legislature, the Acts of the 1967 Legislature (Senate Bill No. 326), the Acts of the 1968 Legislature (House Bill No. 345), and the Acts of the 1978 Legislature (House Bill 145).

The Cigarette Tax designated as Chapter 11, Article 17, levied and imposed a tax upon the sale of cigarettes to raise additional revenues for the general revenue fund of the State and revenue for the support of free schools. It provided for the payment and collection of such tax and the administration thereof. Also a tax was levied on the use, consumption or storage of cigarettes and prescribed penalties for the violation thereof.

Under the provisions of this Act taxes have been collected for the fiscal years 1978-1979 and 1979-1980 as shown in the following table:

*The Acts of the 1978 Legislature (House Bill 145), amended and re-enacted certain sections of Article 11, Chapter 17, effective June 1, 1978, imposing an additional tax of 5 cents/package of cigarettes making the total of 17 cents tax for each (20) twenty cigarettes including any inventories on hand on the effective date of the amendment.

SOFT DRINKS TAX

The Soft Drinks Tax was enacted by the Legislature in 1951. The tax, known as Chapter 11, Article 19 of the Code of West Virginia, was amended by the Legislature February 5, 1958, effective from passage. The law was amended February 8, 1960, to become effective July 1, 1960. This amendment relieved many items for domestic use imposed by the amendment of 1958 and reinstated the provision for the tax for commercial use at soda fountains, restaurants, etc., with the specific provision for taxing soft drinks items such as kool aid, oh boy drinks, tip top, miracle aid and all other similar products both domestically and commercially. This Article imposed an excise tax upon the sale, use, handling or distribution of bottled soft drinks and soft drink syrups, which includes all powder bases prepared for mixing soft drinks.

Permits are required by retailers who manufacture and/or purchase unstamped soft drinks items, and all manufacturers, wholesalers and distributors, both in the State and out of the State, who sell or distribute any soft drink or syrup within the State.

This tax was imposed to be used solely for the construction, maintenance and operation of a four year school of medicine, dentistry and nursing. It provides for the payment and collection of such tax and the administration thereof.

Under the provisions of this Act taxes have been collected for the fiscal years 1978-1979 and 1979-1980 as shown in the following table:

Information Concerning West Virginia Business Franchise Registration Certificate Tax Act

The 1970 West Virginia Legislature enacted the Business Franchise Registration Certificate Tax Act (Chapter 11, Article 12, Code of West Virginia) effective July 1, 1970.

Who Is Covered By The Act?

Anyone in business, "Business" shall mean any business, whether a person engaged expressly or impliedly holds himself out as engaged in business or supplying his products or a commodity or service to the public as a class or a limited portion of the public or sells any goods, wares, merchandise of any kind or provides a service of any kind.

Who Is Exempt From The Act?

That "business" shall not include sales of products of the farm, garden, or dairy by the producer or grower thereof; occasional sales by societies acting for charitable, religious or benevolent purposes; judicial sales directed by law or court order; or any business the gross income of which is less than four thousand dollars per license year. "Gross income" shall mean the gross receipts of the business received as compensation for personal services and from trade, commerce, or sales and the value accruing from the sale of tangible property (real or personal), or service, or both, without any deduction on account of the cost of property sold, materials used, labor costs, taxes or any other expense whatsoever.

Persons exempt are requested to register; however, they are not required to pay the fee of $15.00.

What Is Required Of Anyone Going Into Business Or In Business?

Any person is required to register prior to going into business, or each fiscal year July 1 to June 30 thereafter, and pay a fee of $15.00 for each business location a person holds himself out to engage in or transact business therefrom. Anyone doing business in West Virginia is presumed to have a business location for the purposes of this Act.

Penalty Or Fine

Anyone engaging in or prosecuting any business activity who fails to register with the State Tax Department may be penalized $50.00 per month.

License Replaced By This Act

Businesses previously licensed by the State Tax Department will be required to register under the Business Franchise Registration Certificate Tax Act (in addition Soft Drink license will still be required); however, other license previously issued by the State Tax Department will no longer be required but a Business Franchise Certificate will be. And, of course, there are a number of businesses that were not required to register previously but will be required to register under this Act.

Does This Act Affect Other License Issued By The State?

No, in other words, registration or license required by the Banking Commission, Beer Commission, Insurance Commission, etc., are not affected by this Act.

Under the provisions of this Act collections are as follows:

BUSINESS FRANCHISE REGISTRATION TAX

Fiscal Year	Net Revenue
1969-1970	$ 245,396*
1970-1971	1,037,583

PERSONAL INCOME TAX

The West Virginia Personal Income Tax Act (W. Va. Code, Ch. 11, Art. 21) was enacted by the 1961 Regular Session of the Legislature on February 10, 1961, and signed by the Governor on February 14, 1961. The provisions of the Act applied to all taxable years ending on or after December 31, 1961, including that part which elapsed prior to the effective date of the Act. The Act was applied to taxable years beginning prior to and ending in the year 1961, but the tax imposed for any such year was on a prorated basis.

Description of Tax. The West Virginia Income Tax Act imposes a personal income tax on the taxable income of all resident individuals, and resident estates and trusts, irrespective of where such income is earned. Non-resident individuals, estates and trusts are taxed only upon income derived from West Virginia Income Tax. A trust or other unincorporated organization which by reason of its activities is exempt from Federal Income Tax is also exempt from West Virginia Income Tax.

The nature of the Act was to adopt for West Virginia Personal Income Tax the provisions of the Federal Income Tax laws relating to the determination of income. As adopted, it can be stated that the West Virginia Income Tax Act is a conformity statute. The same general concepts of income, gain, loss and deduction are employed in the West Virginia Act as are employed in the Federal Income Tax Law. The method used to make reference to the federal law is general in scope. With the exception of several modifications, West Virginia adjusted gross income is federal adjusted gross income. Amendments made to the Federal Income Tax Law which affect income, gain, loss and deduction are reflected in the West Virginia Income Tax Law by periodic legislative enactments. The conformity with the Federal Income Tax Law was adopted to simplify preparation of state income tax returns, to improve enforcement of the State Income Tax through better use of information obtained from federal income tax audits, and to aid interpretation of the state tax law through increased use of federal judicial and administrative determinations and precedents.

Deductions. An individual, resident or nonresident, may use the West Virginia standard deduction on his state return, regardless of whether he used the standard deduction or claimed itemized deductions on his federal return. The West Virginia standard deduction of an individual is ten (10) percent of his West Virginia adjusted gross income or $1,000, whichever is less. A resident or nonresident individual may elect to use itemized deductions in computing his West Virginia taxable income only if he claimed itemized deductions for the same year on his federal return. Itemized deductions for residents are the same as federal deductions, with the exception of two modifications; nonresidents' deductions must be attributed to or connected with West Virginia sources.

Personal Exemptions. An individual, resident or nonresident, is allowed an exemption of $600.00 for each exemption to which he is entitled for the taxable year for federal income tax purposes. A husband and wife who file joint federal but separate West Virginia returns may each claim only the exemptions to which he or she would have been entitled if separate federal returns had been filed. The exemption for an estate or trust is $600.00.

Rate of Tax. For all taxable years or portions there of ending prior to January 1, 1963, the West Virginia Income Tax rate was six (6) per centum of the Federal Income Tax which would have been imposed on an identical amount of federal taxable income. For the taxable years or portions thereof beginning on or after January 1, 1963, ending on or before December 31, 1969, the West Virginia Income Tax rate, which is equally applicable to individuals, estates and trusts, was a rate graduated from 1.2% to 5.5% of the West Virginia taxable income. For the taxable years beginning on or after January 1, 1970, ending on or before December 31, 1970, the West Virginia Income Tax is a rate graduated from 1.65% to 7.6% of the West Virginia taxable income. For the taxable years beginning on or after January 1, 1971, the West Virginia Income Tax rate will be a rate graduated from 2.1% to 9.6% of the West Virginia taxable income. The West Virginia Income Tax Act provides only two rate schedules; one for joint returns and surviving spouses, and one for individuals and heads of household.

Credits Against Tax. The West Virginia Income Tax Act provides credits against the personal income tax for: (1) Business and Occupation Tax imposed against the taxpayer; (2) Carrier Income Tax imposed against the taxpayer; (3) West Virginia Income Tax withheld from the Individual's wages or salary; (4) estimated income tax payments made by the individual; (5) income taxes paid by residents to other states; and income taxes paid by nonresidents to their state of residence, except for certain states with which West Virginia has a reciprocal agreement or practices reciprocity.

Homestead Relief. Chapter 11, Article 25 was enacted to provide general relief for low income citizens who are sixty-five years of age or over to aid them in providing or maintaining a homestead, by authorizing a claim for relief to be filed with the state tax commissioner and payment thereof from state funds, the amount of relief to be measured in part by the real property taxes or that portion of rent attributable to real property taxes paid by any such citizen. The effective date of this article was January 1, 1973.

RESEARCH DIVISION

In mid-1970 the Research Division was officially established for the purpose of centralizing the various research-oriented activities of the State Tax Department.

Responsibilities of the Division can be summarized as follows:

(1) The development of methodology for, and preparation of, tax revenue estimates — including both short and long range economic forecasting;

(2) The preparation of "Fiscal Notes," official estimates of revenue effects, for all major legislative tax and revenue bills;

(3) The development and preparation of information systems (with the assistance of Data Processing) for the reporting of tax data in Tax Department publications;

(4) Fiscal analysis (continuing) of all state and local revenue sources and revenue alternatives;

(5) Development of management analysis programs for internal departmental operations;

(6) Acting as the central research organization within the Department, providing support services for the divisions administering tax statutes;

(7) The preparation of responses to inquiries and the dissemination of information to the public regarding the State's revenue system, the organizational design of the Tax Department and revenue statistics for those taxes administered by the Department;

(8) Finally, the Director of Research serves as chief fiscal advisor to the State Tax Commissioner concerning tax/flow revenue consistency and the economic effects of major tax issues.

DIVISION OF LOCAL GOVERNMENT RELATIONS

By far the largest of all the divisions in the Tax Department is the Division of Local Government Relations. The Division is charged with the responsibility of administering the budget and audit requirements of all local government entities in the State of West Virginia. In addition, the Division appraises all operating public utility property and appraises all non-utility property in the State for property tax purposes. For this reason, only one-third of the Division's employees are based in Charleston. The Division is divided into two separate operation Groups. The main functions of the Division are described below.

Property Tax Appraisal Services Group

The State Tax Commissioner has long had the responsibility for assisting the fifty-five county assessors in West Virginia. But the 1958 Legislative action which resulted in the provisions of Chapter 18, Article 9(a) materially increased the authority of the Commissioner's Office. As a result, the State Tax commissioner, through his Appraisal Group, works to improve assessment methods in order to achieve more realistic property valuations, and more importantly, a higher degree of equality between assessments. The Tax Commissioner's certification of the appraisal of property units within an assessor's county provides valuable guidelines for the assessor in laying assessments in his county each year. The State Tax Commissioner, by law, holds an annual meeting for all county assessors and county commissioners during which various problems are discussed and policy positions expressed. In 1958 a "Guide for West Virginia Assessors" was published and distributed which dealt with various problems of appraisals and valuations under the assessment laws. This guide was revised and expanded in 1970, 1976 and again in 1980.

In 1958, the West Virginia Legislature recognized the lack of uniformity in property assessments and authorized a property reappraisal program at the State level and on a statewide basis. The Legislature enacted a law which provided that "the Tax Commissioner shall make or cause to be made an appraisal of non-utility property both real and personal in the several counties of the State. Such appraisal shall be based upon the true and actual value of said property." As developed by the Local Government Relations Property Tax Appraisal Group, the program included four major steps in each county: Microfilming, tax mapping, appraisal, and certification to the county of the completion of the program. The cost was borne 90% by the state and 10% by the county.

As a result of the reappraisal program, each county assessor was provided three major products: (1) a complete up-to-date set of property record cards covering each parcel of property in the county. Each card contains a detailed description of the property and improvements shows the computations involved in arriving at the value of the land and improvements; (2) a set of tax maps of the entire county showing the location and ownership of each parcel of property together with its dimensions and other pertinent data; and (3) a set of map index cards cross-referencing property cards and map numbers.

The original reappraisal program was completed in all fifty-five counties by July 1, 1967, and had the effect of equalizing property assessments on individual properties and provided a larger property tax base for the levying bodies to extend tax rates against.

A new appraisal cycle was initiated in 1973. This program will bring all real estate in West Virginia to current market value and, therefore, will be the basis of more uniformity for the assessment of property.

The Property Tax Appraisal Services Group maintains individual records for over one million six hundred thousand parcels of surface and fee properties. In addition complete personal property appraisal records are kept for all industrial and commercial personal property in West Virginia. To facilitate the calculation and recording of all the data connected with the reappraisal of all real estate, industrial, and commercial personal property and subsurface coal property in West Virginia, innovative computer systems are being devised which, when fully implemented, will allow the State to annually update and reappraise all types of property to current market value should that type of service be deemed desirable.

The Property Tax Appraisal Group has the responsibility of preparing tentative valuations of all public utility property in the State and providing these valuations to the Board of Public Works for annual assessment of such property. The Board of Public Works reviews all assessments, makes corrections it deems proper, conducts hearings to entertain protests from public utilities involved, and fixes the assessments in final form. After making such assessments, they are allocated by the State Auditor to the various counties in which the utility property is located, such allocation being approved by the Board. The system value of enterprise on all such utilities is established. In the case of interstate utilities, the Internal Operations Group computes a share of the value to be apportioned to the State of West Virginia subject to the Board's approval. For the year of 1978 the final assessed valuation for all utilities amounted to $1,956,723,750.

The present program is being accomplished by Appraisal Group personnel, who are Civil Service employees and well qualified in the techniques of mass appraisal.

The cost of the program will be funded fully by the State.

It is the purpose and intent of our constitution and statutes that all property should share the tax burden in equitable proportion of its value. If individual assessed valuations are uniformly determined, fair treatment is afforded all taxpayers. Failure to achieve such equalization results in unequal taxation, which is contrary to every fundamental concept and requirement that taxation shall be equal and uniform.

Fiscal Supervision and Services Group

The State Tax Commissioner is, ex-officio, the Chief Inspector and Supervisor of Public Offices. As such, the Tax Commissioner has the statutory responsibility to examine all financial affairs of every local government office or agency at least once a year, if practical. The responsibility and power was placed on the Tax Commissioner because of his related functions concerning the supervision of the levy and collection of property taxes.

The Local Government Relations Division, Chief Inspector Group, conducts post audits of 230 municipalities, 55 counties and their associated functions such as hospitals, airports and related agencies, 55 county boards of education, and all county magistrate and circuit clerk's offices. In addition, because of the availability of a trained staff, the Chief Inspector Group conducts certain functional audits required by the Federal Government of operations that are partly or wholly funded from Federal sources. For example, the Chief Inspector Group audits the Federal disaster funds received by any government level in the State.

Each year the Chief Inspector Group reviews the levy estimates or budgets of each levying body in the State. This includes fifty-five boards of education, fifty-five counties and 230 municipalities. These estimates are reviewed to determine whether proposed expenditures are lawful, whether revenue estimates conform to the statutes and whether the proper rate of levy is set forth to cover estimated expenditures and bond obligations. These estimates must be approved before the levy is laid.

An additional duty was imposed upon the Chief Inspector Group with respect to budgets in 1963, by Legislative enactment permitting a revision of the annual levy estimates with the approval of the State Tax Commissioner. These bodies may present themselves at any time throughout the year for approval of the changes necessary to responsibly discharge their duties.

Additionally, the State Tax Commissioner is charged with the responsibility of developing a uniform accounting system throughout local government. The Chief Inspector Group has developed and implemented a uniform modified accrual accounting system for county and class I, II and III municipal governments. The new system is designed in accordance with the accounting system recommended by the Municipal Finance Officers Association and the National Council on Governmental Accounting and was implemented July 1, 1979.

The Fiscal Supervision and Services Group also provides services to local governments through its county tax computer system. This sytem processes and prints the real and personal property books, extends taxes, prints the tax tickets and receipts, keeps track of taxpayer payments and delinquencies, and prints many reports necessary to operate the property tax system. The system utilizes computer terminals tied by telephone line to the State's central computer facilities (ISSD). Currently Berkeley, Fayette, Harrison, Kanawha, Mason, Mercer, Mineral, Ohio, Preston and Raleigh Counties use the computer tax services.

DIVISION OF BUSINESS TAXES

The Business Tax Division is the largest revenue Division in State government and administers six major revenue statutes. The Division was formed in 1969 by reoganization of four separate entities to provide greater administrative coordination and control.

In the fiscal year ending June 30, 1971 revenue from tax laws administered by the Business Tax Division comprised in excess of sixty percent (60%) of the total State

General Revenue Fund receipts. The administrative costs of the Division were well below one percent (1%) of the close to $350,000,000 in collections in the year 1972-1973, giving indication of the rationale of the 1969 reorganization and the efficiency and dedication of the Division's employees. With these traits and trends still in evidence today, the Business Tax Division anticipates administrative costs to be significantly less than one half of one percent (1%) of the revenue estimates for the year 1979-80, with total collections expected to approach $650,000,000.

A number of new programs have contributed to the efficiency with which business oriented revenue laws are administered. A computerized delinquency control program introduced in 1970 has been refined to the degree that late filing of returns has diminished from an average of 7,000 per month to a current rate of about 2,500 per month. Working in conjunction with a sister Division, in this area, Business Tax makes no less than six comprehensive sweeps of its delinquent accounts during the course of a given year, via computer notices and personal contact.

An expanded force of field examiners has also contributed greatly in increasing compliance with State Tax laws. With field personnel conducting approximately 2,000 comprehensive audits, the potential tax yield from their efforts is currently running at a $20,000,000 annual rate.

Perhaps the most significant accomplishment of the Business Tax Division in recent years has been the revision of the administrative regulations pertaining to their taxes. There rules and guidelines, designed to clarify ambiguities in the existing tax statutes and simplify reporting practices, were introduced in 1974. Both taxpayer and tax administrator profit from these innovative tools of management in their complementary efforts to lend consistency to our State tax structure.

Currently, the Division is continuing its efforts to enhance the revenue collection process and provide optimal service to the taxpayers of the State. Innovations in the area of computerized audits of accounts have progressed rapidly and are approaching full implementation. Key Division personnel are now able to better utilize their time in providing personalized service to taxpayers with special difficulties. In addition, through a cooperative effort involving other divisions in the Department, a uniform tax account number system has been adopted, whereby all businesses operating within the State are assigned a single account identification number for all tax reporting purposes. This procedure was developed to eliminate the confusion associated with a myriad of tax account numbers previously assigned to each business for each tax liability incurred.

Within the administrative realm of the Business Tax Division lies the largest single source of State revenue, the business and occupation tax. This tax alone generated over $436,000,000 during the fiscal year 1979-80, representing a healthy one hundred percent increase in net annual revenue over the past four years. Though occasionally maligned as an unyielding burden upon State businesses, its relative immunity to the eroding effects of spiraling inflation have reinforced its reputation as the "backbone" of the State General Revenue Fund. Continued economic growth and national attention to the coal industry virtually assure a sound economic profile for West Virginia's future.

A recent amendment to the business and occupation tax statute extends this economic security to the local levels of West Virginia government. Commonly referred to as a "Severance Tax", though actually representing nothing more than business and occupation tax revenue earmarked for distribution to county and municipal governments, a ten percent increase in the business and occupation tax rates on coal production, effective July 1, 1975, has provided over $12,000,000 to local coffers since its inception. Although seventy-five percent of these additional monies are returned directly to the coal producing counties of West Virginia, the remaining twenty-five percent share is proportionately divided between all counties and all incorporated municipalities on a per capita basis.

The Annual Tax on the Income of Certain Carriers—referred to as the Carrier Tax was enacted in 1967 as successor to the Transportation Privilege Tax. The yields of approximately $4,900,000 in 1970-1971 and approximately $5,600,000 in 1971-1972 were not indicative of the potential yield of the tax, as complete auditing procedures have been only recently developed and implemented.

The real effect of these procedural innovations becomes readily apparent, however, when a more recent review of Carrier Income Tax revenue reveals an average annual yield in excess of $17,000,000 during the last two years.

The Consumers Sales and Service Tax and the Use Tax, separate but related under law, are also administered by the Business Tax Division. The annual combined yield of these two consumption taxes is steadily increasing: from approximately $79,000,000 in 1970-1971 to over $164,000,000 in 1979-1980. The character of the sales tax laws has remained relatively the same over the last decade with the exception of the temporary removal of certain exemptions during the period April 1, 1969, to March 31, 1970.

The West Virginia Corporation Net Income Tax Law was enacted in 1967 with the dual purpose of adding to State revenues and of securing income data for West Virginia corporate taxpayers. Recent trends indicate that the net yield of the tax will approximate $15,000,000 annually, despite the direct credits for business and occupation tax and carrier income tax paid.

The West Virginia Corporate License Tax Law offers a unique situation in State tax administration in that administrative responsibilities under the statute are shared by two independent State agencies. While the Business Tax Division maintains an accounts control system and performs the data gathering and tax collection functions prescribed by law, the Secretary of State's Office is charged with taxpayer registration and numerous other duties related to corporations operating as business entities within the State. This anomaly arose from legislation effective July 1, 1975.

Through a concerted effort to achieve its broad agency objective...to provide effective administration, consistent application, and faithful enforcement of the six revenue statues within its administrative jurisdiction...the Business Tax Division has fulfilled its goals, while providing the State with increasing increments of revenue at decreasing costs.

DIVISION OF INHERITANCE TAX

The Inheritance Tax, which is one of the oldest indirect taxes administered in the State Tax Department, yields over 12 million dollars annually. As contrasted with the Federal estate tax, the inheritance tax is based on the right to receive property from a decedent, and in theory the tax is owed by the recipient. In point of fact, the tax is normally paid by the executor or administrator of the estate, and functions as a reduction in the amount of property actually passed on to designated recipients.

The inheritance tax statute, partly because of its age, has not been materially revised or altered and is troublesome in many respects, both to the administrators of the law and to those who are compelled to comply with it. Experts in the field have recommended revision and modernization of inheritance type tax laws. Various groups have studied the statute with an eye to clarification of it through amendment, but most have abandoned that as a realistic possibility and recommended outright repeal and substitution of an estate-type tax patterned after the Federal estate tax. These recommendations do not seek to increase the tax yield, but would provide rates which would produce approximately the present tax result. The sole aim of these recommendations is to provide a workable structure which is intelligently geared to modern tax thinking.

OFFICE OF HEARINGS AND APPEALS

The responsibilities of the Office of Hearings and Appeals are based upon the Tax Commissioner's statutory duty to provide taxpayers with an opportunity to object to certain tax assessments. This statutory duty is fulfilled by means of an informal administrative hearing at which a duly appointed Hearing Examiner, representing the Tax Commissioner, presides. At the hearing, evidence is offered by representative of the State Tax Department to prove the validity of the tax assessment and evidence is offered by the taxpayer and/or its representative to disprove the validity of the tax assessment. In addition, this Office is empowered to convene hearings in the above described manner to determine the validity of petitions for refunds presented by taxpayers to the State Tax Department. Following these hearings, the Hearing Examiner submits his determination to the Tax Commissioner who then issues a written administrative decision on the matter.

The Office of Hearings and Appeals docketed for hearing the following number of taxpayer's petitions during the years 1979 and 1980:

PETITIONS FOR REASSESSMENT

	Petitions	Total Amount
1979	420	$ 7,587,861.19
1980	392	$31,356,567.33

DIRECT TAXATION

For the purpose of levies property shall be classified as follows:

Class I. All tangible personal property employed exclusively in agriculture, including horticulture and grazing.

All products of agriculture (including livestock) while owned by the producer;

All notes, bonds, bills and accounts receivable, stocks and other intangible personal property;

Class II. All property owned, used and occupied by the owner exclusively for residential purposes;

All farms, including land used for horticulture and grazing, occupied and cultivated by their owners or bona fide tenants;

Class III. All real and personal property situated outside of municipalities, exclusive of classes I and II;

Class IV. All real and personal property situated inside of municipalities, exclusive of classes I and II.

MAXIMUM RATE OF LEVIES

Levies authorized by the Tax Limitation Amendment to the State Constitution, voted at the general election November 8, 1932, as apportioned and fixed by Section 6, Chapter 67, Acts of the Second Extraordinary Session of the Legislature of 1933, (House Bill 234) amending Section 6, Article 8, Chapter 11 of the Code of West Virginia, 1931, as amended by sections 2, 6-b, 6-c and 6-b (House Bill 179) Regular Session 1949, as amended by Section 6-c (Senate Bill No. 121). Regular Session 1961.

The rates of levies as set out in the above schedule for CURRENT purposes may not be exceeded, except that a local levying body may provide for an election to increase the levies by entering on its record of proceedings an order setting forth:

(1) The purposes for which additional funds are needed;

(2) The amount for each purpose.

(3) The total amount;

(4) The separate and aggregate assessed valuation of each class of taxable property within its jurisdiction;

(5) The proposed additional rate in cents on each class of property;

(6) The proposed number of years to which the additional levy shall apply.

The local levying body shall submit to the voters within their political subdivision, the question of the additional levy at either a general or special election. If at least sixty percent of the voters cast their ballots in favor of the additional levy, the local levying body may impose the additional levy. This levy shall not exceed fifty percent of the rates authorized and shall not continue for more than three years without resubmission to the voters, except in the case of schools, the levy shall not exceed one hundred percent, and shall not continue for more than five years.

A tax, in an amount sufficient to pay the interest and principal on bonds issued by any school district not exceeding the aggregate five percentum of such assessed value, may be levied outside the limits fixed by Section one of this Article in the manner provided by the "Better Schools Amendment" as ratified November 4, 1958.
